

REMARKS

Claims 41-45 have been added. Claim 41 defines features of the gas injector body, Claim 42 recites that the injector body is made of dielectric material, Claim 43 recites that there are 8 angled gas outlets, Claim 44 defines the acute angle as 10 to 70° and Claim 45 recites that the angled gas outlets direct the process gas such that the gas does not flow directly towards a substrate being processed. No new matter has been presented in the new claims.

In view of the foregoing, it is submitted that the present application is in condition for allowance and such action is earnestly solicited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
